## PROFESSIONAL SUMMARY

Patient-focused professional with over 9 years of healthcare experience, specializing in laboratory technology, phlebotomy, and front-office operations. Proven track record in managing high-volume medical environments, facilitating patient communication with fluent English and manageable Arabic, and bridging the gap between clinical teams and clients. Expert in handling registrations and service coordination within the Kuwait Ministry of Health framework.

## CORE COMPETENCIES

- **Laboratory Expertise:** Phlebotomy, Biochemistry, Hematology, and LIS.
- **Front Office Operations:** Patient check-ins, registration, and admin workflows.
- **Patient Support:** Counseling, follow-ups, and inquiry resolution.
- **Bilingual Communication:** English (Fluent) and Arabic (Manageable).
- **Coordination:** Streamlining medical staff and patient communication.

## PROFESSIONAL EXPERIENCE

**Technical Assistant & Patient Coordinator** **Feb 2025 – Present**
*Kuwait Resources House (KRH), Kuwait*

- Serving as a key point of contact for external clients to streamline service requests and report deliveries.
- Managing daily patient flow and performing advanced phlebotomy and blood extraction with high precision.
- Ensuring equipment calibration and that all diagnostic protocols are clearly communicated to patients.

**Front Office Support & Phlebotomist (Al Sabah Project)** **5+ Years**
*Al Rashid Allergy Centre, Kuwait*

- Managed the phlebotomy and sample "send-out" section, ensuring all patient records were documented accurately.

- Acted as a vital link between medical staff and the laboratory to ensure rapid diagnostic turnaround.
- Operated and maintained advanced diagnostic equipment while ensuring 100% compliance with precision-based documentation policies.

### Laboratory Technician & Patient Coordinator

*Kashmir Clinics (Multi-Specialty), India*

- Performed biochemistry and hematology investigations using Randox and Beckman Coulter analyzers.
- Acted as a dedicated Sales/Patient Coordinator, managing follow-ups with doctors and patients to ensure continuity of care.
- Maintained NABH accredited standards of analysis for all outdoor patient investigations and registrations.

## EDUCATION & CREDENTIALS

- **B.Sc. in Medical Laboratory Technology –** Chaudhary Charan Singh University, India.
- **Diploma in Medical Laboratory Technology (DMLT) –** Institute of Public Health and Hygiene, India.
- **QuadraBay Pre-requisite:** Completed Primary Source Verification for MOH compliance.

I affirm that the above-mentioned information is true to the best of my knowledge.
