deepakmtrs@gmail.com

Dynamic and results-driven Sr. Quality Analyst with over 3 years of professional experience in designing, testing, and improving software applications in fast-paced, Agile environments. Proficient in programming languages including Java, SQL, and C++, with a strong track record of enhancing software performance, improving user experience, and optimizing QA processes. Proven leadership skills in guiding cross-functional teams and contributing to impactful tech-driven solutions. Currently seeking a challenging opportunity in the IT sector in India or Dubai to contribute to innovative software development initiatives and streamline QA methodologies.

EXPERIENCE

SR. QUALITY ANALYST
March 2022 – Present

Amazon Development Center, Bangalore

- Test Automation & Execution: Implemented automated scripts using Selenium, reducing test cycles by 30%.
- Defect Tracking & Reporting: Used Jira to track and resolve over 150 defects, ensuring product reliability.
- Client Coordination: Maintained regular updates with stakeholders, ensuring alignment of test efforts and product goals.
- Audit Scope Planning: Led resource and audit planning, reducing time overruns in key releases.
- KPI Monitoring: Tracked catalog performance and team productivity through performance dashboards.
- Keyword Optimization: Contributed to improving product search ranking via strategic keyword enhancements.
- Team Leadership: Mentored junior QA members and coordinated with cross-functional departments for product testing.
- Continuous Improvement: Identified QA process gaps and introduced workflow automations to improve testing throughput.

ASSOCIATE ENGINEER
March 2021 – Nov 2021

Arcis E Services, Chennai

- Team Management: Supervised a team of 5–10 engineers for statutory audit reviews.
- Database Testing: Created and executed SQL queries to validate backend data integrity.
- Bug Identification: Identified performance bottlenecks, improving application efficiency by 25%.
- Client Interaction: Acted as a liaison for technical audits and data discrepancy resolution.
- Code Review: Participated in peer reviews and suggested improvements in test coverage.
- Process Enhancement: Proposed workflow changes that shortened test case execution time.
- Documentation: Prepared audit summaries and technical QA documentation.
- Training & Support: Trained junior team members on test environments and error logging procedures.

EDUCATION

MBA IN TECHNOLOGY MANAGEMENT

- Bharathiar University – Graduated 2023

BACHELOR OF ENGINEERING IN ELECTRONICS AND COMMUNICATION

- Anna University – Graduated 2019

HIGHER SECONDARY EDUCATION

- Kerala State Board – Graduated 2015

SKILLS

- Technical Skills: Software Testing (Manual & Automation), Debugging & Troubleshooting, SQL / Database Testing, SDLC & STLC, Jira / Bugzilla, Test Case Design & Execution, Regression Testing, Unit & Integration Testing, Selenium WebDriver, API Testing, Agile Methodology, Functional & Non-functional Testing, Version Control – Git, TestNG, JUnit, Postman, Java, C++, Performance Tuning, Load Testing, CI/CD Tools (Jenkins), QA Documentation
- Soft Skills: Communication, Leadership, Teamwork, Problem Solving, Attention to Detail, Critical Thinking, Adaptability, Time Management, Client Coordination, Analytical Thinking.

PERSONAL DETAILS

- Date of Birth: 30/07/1997
