My Name is Muhammad Naqash Mughal from Pakistan. I would like to let you know that I am interested in working with you in a position where I have to work as a Dental Hygienist Technician, Dental Assistant, Oral Maxillofacial Assistant, or Orthodontic Assistant in your prestigious practice. Considering my extensive experience working in association with oral maxillofacial surgeons and orthodontists, I am sure that I could be a significant asset for your practice.

Competencies in which I have expertise include providing support during oral maxillofacial surgery procedures, performing oral hygiene and scaling treatments, and assisting in endodontics. I have extensive expertise in taking dental x-rays and always ensure strict adherence to cross-infection protocols.

In my previous employment, my responsibility included taking care of the preparation of patients undergoing oral maxillofacial surgery and their follow-up after the treatment process became easier. Predicting the needs of the dental surgeons and effective communication with the patient is an attribute which I hold in high esteem.

I am determined to offer the best services whenever I carry out my work in dentistry while offering the necessary support to all your clinical staff. If you will grant me the opportunity, then I would be very honoured to be able to assist you in offering quality services to your clients.
