PROFILE

Dedicated and results-oriented healthcare professional with a dual specialization in Public Health and Clinical Dentistry. Possessing a master's in public health and 7+ years of experience in leading and managing large-scale public health programs, particularly in disease eradication and surveillance. Proven ability to drive successful program implementation, lead diverse multidisciplinary teams, and foster community well-being with extensive expertise in surveillance, outbreak response, infection prevention strategies, and healthcare quality improvement. Complimentary expertise as a compassionate Dental Surgeon with strong clinical skills and a commitment to patient-centered care along with commitment to clinical governance and regulatory compliance. Seeking to leverage a unique blend of leadership, clinical proficiency, and public health acumen to contribute to impactful health and clinical quality initiatives to improve community outcomes and organizational performance.
