ABOUT ME

I am a dedicated and motivated Dental Technologist with an outstanding CGPA of 3.83/4. Currently, I am working as a Lecturer, where I am committed to teaching, mentoring students, and contributing to academic excellence. I am passionate about continuous learning, research, and professional development, with strong organizational, communication, and teamwork skills. I am seeking opportunities to pursue an MS and, subsequently, a PhD to expand my academic and research expertise. I am also interested in gaining professional experience by working in an international academic or healthcare environment, where I can contribute my knowledge while continuing to grow professionally.
