

ATHENA PIENAAR

REGISTERED DENTAL HYGIENIST

I am a dental hygienist driven by a dedication to providing outstanding patient care. Throughout my professional journey, I have consistently exhibited a strong work ethic, an unwavering commitment to advancing oral health, and an inherent attention to detail. My passion lies in assisting patients in achieving and maintaining optimal oral hygiene, coupled with my capacity to instill trust and comfort in a clinical environment, has propelled me to excel in this field. I take pride in my ability to collaborate seamlessly with dental professionals, ensuring the highest standards of patient care. Moreover, I am currently pursuing a postgraduate diploma in public health to further broaden my knowledge and contribute to community well-being.

Experience

Registered Dental Hygienist/Orthodontic Therapist

Dr Joy Dental Clinic — January 2025 - current

Perform cleanings before, during, and after orthodontic treatment, while educating patients on proper oral hygiene. Independant placement of fixed retainers both in-chair and for lab-ordered cases, and handled the scanning and delivery of essix retainers. Perform placement of Invisalign attachments and the delivery of aligners with patient instructions. Additionally, I am responsible for taking patient records (scan and photos) and X-rays to aid in treatment planning and progress monitoring. Execute both in-chair and at-home teeth whitening procedures using flash.

Registered Dental Hygienist

Du Raan Orthodontics — August 2022 - December 2024

Performing both analogue and digital radiography, capturing clinical photographs, and maintaining detailed patient records, including X-rays, orthodontic impressions, models, photos, and 3D intra-oral scans, all of which are essential for accurate diagnosis and treatment planning. My duties also involve constructing and fitting removable retainers, creating study casts for protective vacuum-formed mouthguards, and placing fixed upper palatal and lower lingual retainers. Assisting with band-ups (both indirect and direct). Independently debonding braces followed by a post-debond teeth clean and fluoride treatment and conducting monthly patient consultations for wire progression, bracket replacements and refinement scans. Additionally, engage in dental product sales and techniques. Performings cephalometric tracings, provide relief for trauma caused by intra- and extra-oral appliances, including trimming distal ends of arch wires, placing pre-activated orthodontic appliances, and removing orthodontic attachments and bands, such as elastics and ligature wires, as well as activating arch wires. Post-debond procedures include cleaning and fluoride treatments.

Critical thinking

Registered Dental Hygienist

The Smile Lab

January 2022 - May 2022

Performing pit and fissure applications, debridement, scaling, root planing, cleaning of dental implants, teeth polishing, in-chair teeth whitening, and restorative procedures that do not exceed the enamel. Additional duties include polishing and recontouring overhanging restorations, using both analogue and digital radiography, capturing clinical photographs, and evaluating patients through interviews and oral examinations. Offering patient guidance and education on maintaining oral health through self-care practices, encompassing both mechanical and chemotherapeutic plaque control techniques.
