SUMMARY

Public Health graduate with comprehensive internship experience in infection control, quality management, and occupational health across healthcare and public health settings. Skilled in epidemiological surveillance, data analysis, and community health promotion. Certified in BLS, OSHA, and first response, with strong competencies in health safety protocols, disease prevention, and healthcare administration. Proven ability to support health programs and enhance quality standards in fast-paced environments.

EXPERIENCE

Jazan Health Cluster | Saudi Arabia | For 1 Year
Intern.

- **Hospitals in Baysh and Al-Darb | For 4 Months**
  - Supported infection control, sterilization, and quality management processes.
  - Assisted healthcare staff with patient education and preventive care.
  - Participated in community health screenings and awareness campaigns.
  - Ensured compliance with hospital safety and infection prevention protocols.

- **Command and Control Center**
  - Trained in vital statistics management and emergency response procedures.
  - Assisted with data collection, analysis, and reporting of health metrics.
  - Supported health crisis operations to improve response efficiency.
  - Collaborated with teams to enhance accuracy of health data systems.

- **Public Health Authority**
  - Controlled infectious diseases through epidemiological surveillance and pest management.
  - Implemented public health programs focused on infection prevention and control.
  - Conducted epidemiological studies to monitor and reduce disease spread.
  - Managed vector control initiatives to combat insect-borne illnesses.

- **Ministry of Health – Malaria Department | For 3 Months**
  - Conducted malaria prevention and control fieldwork and data collection.
  - Led community outreach to increase awareness of malaria risks and prevention.
  - Monitored malaria incidence and reported data for health program evaluation.
  - Coordinated field teams to improve malaria control effectiveness.

- **Primary Care Center | For 4 Months**
  - Conducted epidemiological investigations and health education programs.
  - Monitored environmental and water quality to ensure public safety.
  - Supported disease prevention and health promotion activities.
  - Maintained accurate records and facilitated patient follow-ups.
