Gulistan-e-Johor Block-19 Al-Rouf Royal City b-105/2, Karachi, Sindh, Pakistan

ABOUT ME

Experienced cooling-system technician with 12+ years of progressive technical expertise, starting from Assistant AC Technician and advancing to Senior AC Technician at Ebrahim Textile Mills Pvt. LTD. Skilled in installation, troubleshooting, repair, and preventive maintenance of industrial air-conditioning systems, supported by a strong foundation in electrical wiring from earlier roles. Proven ability to diagnose complex cooling-system issues, manage refrigerants safely, and ensure smooth factory operations through timely maintenance support. Known for reliability, teamwork, and a strong work ethic, with additional customer-handling experience from previous sales positions. Committed to delivering efficient, safe, and high-quality technical solutions in fast-paced industrial environments.

PROFESSIONAL EXPERIENCE

Senior AC Technician
Ebrahim Textile Mills Pvt LTD - Karachi, Pakistan
Jan 2024 – Present

- Supervise the installation, maintenance, and repair of air-conditioning and cooling systems across textile production units, warehouses, and administrative buildings.
- Conduct diagnosis and troubleshooting of chillers, split units, air handling units (AHUs), and ventilation systems to ensure uninterrupted operation in critical manufacturing areas.
- Perform preventive and corrective maintenance to maintain optimal temperature and humidity levels required for textile processes and equipment efficiency.
- Oversee refrigerant charging, leak detection, compressor overhauling, and electrical system repairs, ensuring adherence to safety and quality standards.
- Monitor and calibrate temperature control systems, thermostats, and sensors to maintain precise environmental conditions for yarn and fabric production.
- Coordinate with the engineering and maintenance departments to reduce downtime and improve energy-efficient operation of cooling systems.
- Maintain detailed service logs, maintenance reports, and equipment history records for audits and performance tracking.
- Inspect and ensure compliance with factory safety protocols and environmental guidelines, particularly regarding refrigerant handling and waste disposal.
- Provide technical guidance and training to junior technicians and maintenance staff on best practices and troubleshooting techniques.

AC Technician
Ebrahim Textile Mills Pvt LTD - Karachi, Pakistan
Oct 2019 – Dec 2023

- Installed, repaired, and maintained air-conditioning systems, ensuring efficient performance and full safety compliance.
- Conducted routine inspections and advanced troubleshooting for cooling systems and related mechanical/electrical components.
- Performed preventive maintenance to extend equipment lifespan and reduce unexpected breakdowns.
- Handled refrigerant gases responsibly, following all safety and environmental standards.
- Worked closely with maintenance and technical teams to ensure seamless integration of AC systems with factory machinery.
- Responded quickly to service requests, resolving temperature and humidity issues in production and office areas.
- Maintained detailed records of repair work, parts usage, and overall equipment condition.
- Assisted with sourcing and procurement of replacement parts and essential repair materials.

- Passport No: CL6313761

Assistant AC Technician
Ebrahim Textile Mills Pvt. LTD – Karachi, Pakistan
Sep 2018 – Sep 2019

- Assisted senior technicians in the installation, repair, and maintenance of air-conditioning systems.
- Learned basic troubleshooting, wiring, and component handling under supervision.
- Supported preventive maintenance tasks, including cleaning units, checking filters, and monitoring system performance.
- Helped in safely managing refrigerant handling and following environmental safety standards.
- Coordinated with maintenance teams to ensure a smooth workflow during repair and installation tasks.
- Maintained tools, prepared equipment, and recorded basic service details during daily operations.

Sales Man
Junaid Autos - Chakwal, Pakistan
Jan 2017 – Oct 2018

- Greeted and assisted customers in a friendly and professional manner, providing information and guidance on motorcycle parts and accessories.
- Maintained an organized and tidy sales area, ensuring that products were displayed attractively and in an accessible manner.
- Listened to customers' needs and inquiries, offering appropriate products and solutions while cross-selling and upselling when opportunities arose.
- Processed customer transactions efficiently, including cash handling, credit card payments, and issuing receipts.
- Managed inventory by tracking stock levels, conducting regular stock checks, and reordering products as needed.
- Stayed updated on the latest motorcycle parts and accessories, and provided customers with product knowledge and recommendations.
- Handled customer complaints and concerns diplomatically, resolving issues to ensure a positive shopping experience.
- Collaborated with the store manager and team members to meet sales targets and contribute to the shop's overall success.

ShopKeeper
Junaid Autos - Chakwal, Pakistan
Jan 2016 – Jan 2017

- Managed day-to-day operations of the motorcycle parts shop, including opening and closing the store, ensuring it was well-maintained and organized.
- Greeted and served customers, addressing their inquiries, providing product information, and assisting with their motorcycle parts and accessories needs.
- Maintained an accurate inventory of motorcycle parts and accessories, conducted regular stock checks, and reordered products to ensure availability.
- Processed customer transactions, including sales, returns, and exchanges, and managed cash handling and register reconciliation.
- Handled customer complaints and concerns, seeking solutions to ensure customer satisfaction and repeat business.
- Assisted in receiving and unpacking merchandise deliveries, verifying the quality of products, and updating inventory records.
- Participated in visual merchandising efforts by arranging product displays to attract customers and enhance their shopping experience.

Electrical Wireman
Ebrahim Textile Mills Pvt LTD - Karachi, Pakistan
Jan 2013 – Dec 2015

- Installed, repaired, and maintained electrical wiring systems, fixtures, and equipment in compliance with safety and electrical codes.
- Conducted routine inspections to identify electrical issues, troubleshoot problems, and implement timely solutions.
- Worked on the installation and maintenance of electrical panels, circuit breakers, switches, and other electrical components.
- Assisted in planning and executing electrical wiring for new construction projects or facility expansions.
- Collaborated with other maintenance and engineering teams to ensure electrical systems function seamlessly with other equipment.
- Responded promptly to electrical service requests, addressing power outages and electrical faults to minimize downtime.
- Kept detailed records of electrical maintenance and repair work, including parts used, labor hours, and equipment condition.
