Professional Summary

Senior nursing professional with over a decade of extensive experience in clinical nursing, ward supervision, and nursing administration within government healthcare settings. Proven expertise in patient care delivery, staff supervision, infection control, quality improvement, and public health clinic management. Strong background in obstetrics and gynecology nursing, healthcare audits, and administrative operations.

WORK EXPERIENCE

Nursing Superintendent Kashmir, India
Directorate of Health Services, J&K September 2020 – Present

- Directed nursing operations within the gynecology ward by establishing care standards and supervising nursing teams, ensuring consistent and safe patient care.
- Supervised nursing supervisors and staff nurses through performance monitoring and guidance, improving workforce efficiency and clinical compliance.
- Managed family planning and women's health clinics in collaboration with multidisciplinary teams, supporting preventive and maternal healthcare services.
- Led infection control, safety audits, and quality improvement initiatives, ensuring adherence to hospital and public health regulations.
- Oversaw administrative functions including staffing deployment, duty rosters, and resource allocation, optimizing ward operations.
- Conducted medical chart audits and clinical reviews, strengthening documentation accuracy and quality assurance outcomes.

Nursing Supervisor Kashmir, India
Directorate of Health Services, J&K March 2019 - August 2020

- Supervised ward-level nursing care by providing clinical oversight and evaluating staff performance, improving patient care quality.
- Trained and mentored junior nurses through continuous clinical education and skills development, enhancing staff competency.
- Managed ward operations during senior staff absence by coordinating staffing, patient flow, and clinical activities.
- Coordinated patient discharge planning with physicians, community health nurses, and social workers to ensure continuity of care.
- Conducted chart audits and quality checks to ensure compliance with clinical and documentation standards.
- Implemented infection prevention and safety protocols, reducing ward-level clinical risks.

Nursing Officer Kashmir, India
Ahmad's Hospital Nowgam January 2010 – June 2016

- Delivered direct patient care by monitoring vital signs, administering medications, injections, and IV therapies, and documenting patient conditions accurately.
- Implemented and evaluated individualized nursing care plans through regular patient assessments, supporting effective treatment outcomes.
- Responded effectively to patient distress and aggressive behavior using approved de-escalation techniques.
- Maintained high standards of infection control, professionalism, and patient confidentiality.
