Professional Summary

Dynamic and versatile professional offering a unique hybrid blend of Human Resource, Community Health, Clinical Healthcare, and Business Development expertise. With over 10 years of health-sector experience spanning Botswana and Namibia, I bring strong capability in HR support, compliance, training, employee wellness, records management,busin4ss integration, knowledge management , strategic visioning and stakeholder engagement. My background includes hands-on clinical service in hospitals, emergency units, community outreach, and private clinics, giving me deep insight into clinical workflows and employee needs. I combine this with HR training, administrative competence, labour-law exposure (including BOPEU interactions), and business development skills gained in private dental practices.

Education

- Bachelor of Business (Hons) in international Business (**2025**)
